Subject: Rule 10 consultation

Mr. Johnson,

One of our tribal members here at Leech Lake would like to speak briefly at the Rule 10 consultation hearing on March 31. His name is Dale Greene, Sr. and he would only need about 3 to 5 minutes. I realize that comments were to be submitted prior to March 17 but many of the individual tribal members received notice quite late, if at all. The rule changes may affect these people and so the consent or views of the affected Indians are very relevant to this rule change as proposed. It is important to include input from those affected by these proposed changes, the individual tribal members.

The points he would be discussing would be jurisdiction, related case law, meaningful consultation, and due process of law. I would appreciate if you can set aside time for Mr. Greene to contribute and participate in the discussion in person.

Thank you,

Chris Allery
Legal Director
Leech Lake Band of Ojibwe
