PartnerAgencyeFSTest1@courts.state.mn.us

PartnerAgencyeFSTest2@courts.state.mn.us

A waiver account and fake credit card have been created for this firm.

Unfortunately, our non-production eFS environments and our non-production Integration environments are not always perfectly in sync (we are working to make this better). Cases filed before October 2017 should exist in all potential environments. If you need help finding valid case numbers, please let us know.

Some of our non-production environments are set to automatically accept filings from the above accounts. The exception is the "Request for Transcript" case event, which goes to a queue to be manually accepted or rejected. It would be optimal if your non-production environment was able to submit filings with this Case Event type, to make it easier for us to help test how your system handles rejected filings.
