

Parent Attorney Liaisons by District

Below is a list of parent attorneys in each judicial district who have volunteered to serve as leaders within their community and as liaisons to the court. They can connect attorneys doing the work or interested in doing the work with resources and support as well as participate in conversations with county administration and court administration about local appointment practices. They can also help court staff understand who is available for appointments in their area.

For help getting in touch with the lead parent attorney in your district, contact court administration. You can find contact information for court administration in all 87 counties on the [Find Courts tab](#) of Minnesota Judicial Branch website. Contact the Children’s Justice Initiative (CJI) Program at CJI@courts.state.mn.us with questions or to report updated information.
