

STATE OF MINNESOTA

DISTRICT COURT

COUNTY OF CARVER

FIRST JUDICIAL DISTRICT
PROBATE DIVISION

In Re:

Case Type: Special Administration
Court File No: 10-PR-16-46
Judge: Kevin W. Eide

Estate of Prince Rogers Nelson,

Decedent.

**DECLARATION OF CARL WELLS
HALL IN SUPPORT OF
MOTION TO INSTITUTE PROTOCOLS
TO FACILITATE CLOSURE OF THE
ESTATE**

Carl Wells Hall, III hereby states and declares as follows:

1. I am currently a partner with the law firm of Nelson Mullins Riley & Scarborough LLP, a law firm with more than 25 offices and 850 attorneys. My practice focuses on federal, state, and multi-state tax aspects of acquisitions, reorganizations, restructuring of business entities, private equity transactions, and estate and gift tax planning. I have practiced law for more than 45 years and have extensive experience and familiarity with federal, state and multi-state tax matters including estate tax disputes. I am admitted to practice before and have litigated numerous tax cases in the U. S. Tax Court, the Court of Federal Claims, the federal District Courts, and state courts.

2. For four decades, I have been actively involved with the Section of Taxation of the American Bar Association, including my current role as the Chair Elect (2021- 2022) and previous service as Vice Chair of Pro Bono and Outreach (2013 – 2016). In addition, I have been the President of the American College of Tax Counsel. I have served as the Chair of the National Association of State Bar Tax Sections, and the Chair of the Southeast Region IRS/Bar Liaison Committee, among other positions.

3. I am currently ranked as Band 1 - Tax Law in North Carolina by Chambers USA. I have been named among The Best Lawyers in America in the Tax Law field from 2017 – 2022 and the Trusts and Estates field from 2017 - 2020, as well as North Carolina Super Lawyers from 2006 – 2020.

4. I have consulted with L. Londell McMillan, who I understand is an advisor to three of the living heirs to the Estate of Prince Rogers Nelson, namely, Sharon Nelson, Norrine Nelson and John Nelson (the “Heirs”), and is also an Interested Person to the Estate. Over the past few months Mr. McMillan and I, along with other partners of my firm in various offices, have discussed the potential engagement of myself and my law firm to advise the Heirs and Mr. McMillan as to Estate tax issues arising related to closing the Estate, transition tax planning, corporate reorganization, and the tax implications of certain state transactions.

5. I understand that my declaration is being submitted in support of a motion filed in the District Court of Carver County in Minnesota by the Heirs, Mr. McMillan and another Interested Person seeking for the Court to establish certain protocols and to approve a request to engage me and my law firm as tax counsel to the Heirs and certain Interested Persons.

6. I have reviewed certain tax filings and other publicly available information concerning the tax proceedings in the Prince Estate, and discussed the same with Mr. McMillan. It is my observation that the low valuations reported on Form 706 have resulted in penalties that would not have been assessed against the Estate by the Internal Revenue Service had more reasonable valuation positions have been taken on the original estate tax return, as well as potential delays in resolving the federal tax liability issues. It does not appear that the input of the Heirs and Interested Persons was obtained with respect to the valuation of the assets or that a copy of the Form 706 was even shared with the Heirs and Interested Persons prior to filing the return,

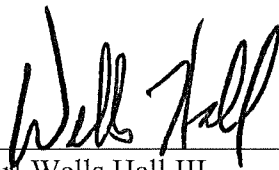

notwithstanding their significant financial interest in the estate. The approval of the Heirs and Interested Persons of the valuation positions may have avoided the risk of substantial tax penalties for undervaluation and negligence penalties.

7. It is my further observation that the Heirs and Interested Persons have received no satisfactory explanation as to why the IRS and state tax audits were not resolved within the three-year statute of limitations and in particular, why negotiations with the IRS appear not to have occurred prior to the issuance of the statutory notice or prior to filing of the petition in the Tax Court. It is my experience that failure to perform these actions within these time frames will very likely serve to draw out tax proceedings that could more quickly and efficiently be resolved and settled more favorably.

8. In my professional opinion, the engagement of separate tax counsel going forward to advise the Heirs and Interested Persons, while working collaboratively with the Personal Representative's legal counsel, will provide assurances to the Heirs and the Interested Persons that their interests are being protected, and that the administration of the Estate will not be unduly prolonged by protracted litigation in the Tax Court. Continued litigation will be costly, time consuming, and may not result in favorable outcomes given the potential value of all of the assets of the estate.

I declare under penalty of perjury that everything I have stated in this document is true and correct.

Signed on August 13, 2021.

Addressing Safe Housing and Wrongful Evictions

When Princeton University began compiling and publishing national eviction rates in 2016, the data was staggering. Low-income women, especially poor women of color, were identified as having a higher risk of eviction than other groups. Recognizing that unstable housing leads to poverty, poor youth educational performance, and homelessness, Nelson Mullins attorneys began assisting organizations in providing legal support to tenants facing wrongful evictions, disputes with landlords over leases, and deplorable living conditions.

Nelson Mullins brings a thoughtful, balanced approach to trust and estate conflicts, which can be personal and complicated

Unfortunately, disputes over trusts and estates are often bitter conflicts with the family's wealth—no matter how large or small that might be—at risk. With an aging baby boomer population and ever-evolving estate-planning tools and options, families are increasingly at risk of conflict over how assets are to be shared or distributed. In addition, professional advisers are often drawn into trust and estate conflicts. Our commitment is to provide the highest level of professionalism in these difficult times, never forgetting that the livelihoods of real people, and sometimes even generations of people, are at stake.

Our attorneys have handled complex disputes involving hundreds of millions of dollars and also simple probate court actions with more modest assets in the balance. Our litigators are accomplished trial counsel in state and federal courts who have created new legal precedents in litigation over novel challenges to estate plans. Whether major assets are at risk or questions of interpretation of a will or trust arise, our team brings the same skills as would be required by Fortune 500 corporations in their major commercial disputes. But when the better course is to make peace, we are adept at tailoring cost-effective solutions.
