Facts:

Prince Rogers Nelson was a detailed artist and kept records of important items, All of Prince Rogers Nelsons past, current and future work would be considered by him as important, Prince Rogers Nelson had paid legal counsel for over 20 years; business agreements and assets to protect and royalties to pay as well as legal bills, estate taxes and maintain his life's work. Prince Rogers Nelson has current, up to date "Agreement" which is not being acknowledge due to the content of whom is too be gifted because those who has "false control to date do not agree with whom he put in charge of the assets, so this is being withheld from the courts. Prince Rogers Nelson is not present to defend himself. There is a major thief draining the Estate of Prince Rogers Nelson dry and I quote what the attorney told me on June 7, 2021, at approximately 2:00 pm in Chanhassen "after the attorneys and taxes are paid there will be nothing left" and I then told the attorney "That is a lie". Lying and looting of Prince Rogers Nelson's life work is happening right now and He took the time to protect his assets and I state that there is an Un-Documented Child " that is being withheld as of to date.
