

## Criminal Search Warrant Filing Information

### Overview

When a search warrant needs to be filed with court administration, the documents must be eFiled into the appropriate administrative file. District courts will periodically create separate search warrant administrative files: a public file for adult criminal search warrants; a confidential file for search warrants with a juvenile subject (Minn. R. Juv. Del. P. 4.01); and a sealed file for warrants issued under chapter 626A and sections 626.085 and 626.19 that are required to be maintained under seal.
